

Create customized stock holdings lists to greatly increase your sales and trading opportunities

Increase Your Effectiveness and Efficiency

BD Vision's stock holding lists will help identify more opportunities for block trading and provide you with more targeted sales call lists to reach the right audience. This tool simplifies the process of managing and identifying clients holding a security.

Key Features

- z Easy-to-use interface to maintain stock lists quickly
- z Customize and control your list names, codes and comments
- z Track custom fields for each security (in addition to the comprehensive list of standard fields)
- z Easily import spreadsheets based lists
- z Automatic field mapping and symbol validation
- z Generated stock lists quickly summarize all company and affiliated contact holdings
- z Flexible search filters include Institutional Holders, Mutual Funds, Stock Holdings Lists (Private Portfolios), Account Coverage, Holder Rank, Numbers of Shares Held
